

USER FEES¹

Due to a high cost of maintenance (800 MHz Cryogenic cost is ~ \$60/day) and operation of the NMR facilities, a NMR user fee will be charged as of April 1st 2010.

The rates are divided into internal academic (short-term and long-term), external academic (short-term and long-term), government and industrial. Fees are based on running cost excluding staff salary. There is a one hour minimum charge.

Category	800 MHz
Internal academic short-term ²	\$15/h
Internal academic long-term ³	\$5/h
External academic short-term	\$18/h
External academic long-term	\$6/h
Government	\$60/h
Industry	\$200/h

	600 MHz	600 MHz SJ ⁴
Category	5mm probe	1.7mm probe
Internal academic short-term	\$10/h	\$12/h
Internal academic long-term	\$4/h	\$5/h
External academic short-term	\$12/h	\$13/h
External academic long-term	\$5/h	\$6/h
Government	\$70/h	\$90/h
Industry	\$220/h	\$270/h

	800 MHz	600 MHz
Sample charge	\$35	\$20
Experiment set-up	\$35/h	\$35/h
Data analysis	\$40/h	\$40/h
Report	\$100 min.	\$100 min.
User training	\$50/h	\$50/h

NMR tubes	Fee
5mm	\$ 35/ tube
3mm	\$ 145/ tube
1.7mm	\$ 3/ tube
shigemi tubes	\$ 112/tube

- 1- All indicated rates are in Canadian dollars.
 - 2- Short-term is less than 9h.
 - 3- Long-term is more than 9h.
- Rates are subject to change without notice.
- 4- Spectrometer equipped with Sample Jet
